| Tools | |
| Slack | Jira |

Tools

Confluence

Others

Emacs Linux(debian)

Org-mode Magit/git

Network Docker

Human Language

French

English

Final

I had to build a website, for my final, i could choose my technology, so i build it with python and django. I was learning the framework and the language in the same time, so it's not perfect, but it made the job. I also build a admin zone django-admin and a calendar with ajax/jquery. <http://www.liex.be>
